Dear Ms. Spanitz:

The Federal Aviation Administration (FAA) has reviewed the Aviation Supplies & Academics, Inc., (ASA) *Commercial Pilot Syllabus*, Eighth Edition, published 2022. The FAA finds the syllabus meets acceptable training standards and is adequate in scope and content for use under Title 14 Code of Federal Regulations (14 CFR) part 141.

It is not a function of this office to certificate 14 CFR part 141 pilot schools, and this letter is not to be construed as an authorization to conduct part 141 training. We are only acknowledging the material presented to the FAA's General Aviation and Commercial Division would be appropriate for use in a certificated part 141 pilot school. The authorization to operate a part 141 pilot school using this syllabus, or any other training material, is a function of the jurisdictional Flight Standards District Office (FSDO).

If you have any further questions, please do not hesitate to contact the General Aviation and Commercial Division at (202) 267-1100 or by email at 9-AFS-800-Correspondence@faa.gov.

Sincerely,

Everette C. Rochon, Jr.
Manager, Training and Certification Group
General Aviation and Commercial Division
