

The FAA originally released AC 43.13-2B in March 2008. In October 2008 an updated version was released resulting in a change to the formula on page 24.

Page Number	Change Explanation
--------------------	---------------------------

24	<i>AC 43.13-2B, text in the formula was changed in two places from "f.p.s." to "mph":</i>
----	---

V is the V_{NE} of the aircraft in **mph**.

Example: Antenna manufacturer specification frontal area = 0.135 sq. ft. and V_{NE} of aircraft is 250 **mph**.
